

**CALL FOR APPLICATIONS FOR NON EU CITIZENS NOT RESIDENT IN ITALY TO
THE ONE-CYCLE DEGREE COURSE IN MEDICINE AND SURGERY WITH LIMITED
ACCESS (Class LM-41) IN ENGLISH AT HUMANITAS UNIVERSITY**

SUMMARY OF THE CALL IN ENGLISH

Academic year 2019/2020

Foreword

The official source of the Call for Applications for EU and equated citizens is “SECONDO BANDO DI CONCORSO, RISERVATO AI CITTADINI NON COMUNITARI NON STABILMENTE RESIDENTI IN ITALIA, PER L’AMMISSIONE AL CORSO DI LAUREA MAGISTRALE A CICLO UNICO IN MEDICINA E CHIRURGIA (Classe LM-41) IN LINGUA INGLESE DI HUMANITAS UNIVERSITY” in Italian. This document represents a summary of the call.

This document is provided for the convenience of international students. In the event of disputes, the parties should refer only to the document in Italian.

Admittance to the Degree Course is subject to selection through the University’s admissions test.

Art. 1 Number of places available

For the academic year 2019/20, the number of places still available for non-EU citizens (as reported in art. 2) is established as 20.

The number of places available may change in accordance to a later Decree of the Ministry of Education, University and Research (M.I.U.R.), pursuant to the provisions of Law n. 264, August 2, 1999. The Decree of MIUR could confirm, increase or decrease the number of places available.

Art. 2 Admission requirements

Only candidates holding citizenship and education requirements reported in this paragraph are entitled to apply.

Citizenship Requirements

Only **NON-EU citizens not resident in Italy** are entitled to apply for the present call for application on penalty of exclusion.

Candidates holding either an Italian or an European citizenship must apply as EU Students.

Candidates applying and sitting the test without the possession of the citizenship requirements will not be considered for the ranking.

Education Requirements

To sit the admissions test, candidates must be in possession of a Secondary School Diploma or completing the last year of the secondary education (High School) by July 31st.

For students holding a foreign High School qualification, a diploma is considered valid if obtained after at least 12 years of education, accompanied by the Declaration of Value issued by the Italian diplomatic authorities.

In the event that the local school system provides for 11 or 10 years of schooling, the title is valid when integrated with one or two years of university, having passed all the required exams for those academic years.

Candidates not holding valid qualification, according to the requirements of law, will lose the right to enrol. Furthermore, if already enrolled, the candidate's enrolment will be cancelled.

For the validation of foreign qualifications, Humanitas University will follow Ministry guidelines for the academic year 2019-20 (latest update March 11th 2019) available in Italian at:

<http://www.studiare-in-italia.it/studentistranieri/>

Art. 3 Application for the admissions test and deadlines

The test will be run in two test sessions of the same level of difficulty. **Each candidate is entitled to sit only one of the two test sessions.**

The application for the Admissions Test can be completed exclusively online on the University website www.hunimed.eu:

- from April 12th 2019 to June 17th 2019 (deadline) for the test date **June 24th** ;
- from April 12th 2019 to June 28th 2019 (deadline) for the test date **July 5th** .

The candidate can sit the examination at a number of selected locations in Italy and abroad reported on the website www.hunimed.eu and specified in the Art 15 – “List of test centres”. The location of the test must be selected during the online application procedure. **The choice is irrevocable.** The number of seats available in all test centres is limited and subject to availability. Seats are assigned on a first-come, first-served basis according to the chronologic order of the test fee payment until availability is completed. Therefore, the University reserves the right to indicate an alternative test centre for the test.

Once the application procedure is completed and the test fee payment is processed, Humanitas University will send an e-mail to the candidate to confirm the availability of the selected test centre. A time lapse of some days may occur between the payment and the e-mail confirmation of the test venue. The address of the selected test venue will be specified in the e-mail. Confirmation will be given starting from June 3rd 2019.

Online application procedure:

1. **MyPORTAL Online registration at <https://humanitas.esse3.cineca.it>:** the candidate must register online to receive a username and a password; the username and password will be necessary to access the personal page on Humanitas University MyPORTAL;
2. **Application for the Admissions Test:** the candidate must apply for the admissions test by using his/her username and password according the timeline reported above.

In order to be entitled to sit the admissions test, candidates are requested to pay the test fee, which amounts to Euros 160.00. Payment must be made according the following deadlines:

- by June 17th for the test session of June 24th ;
- by June 28th for the test session of July 5th .

The application for the Admissions Test must be done according to the instructions described above, on penalty of exclusion.

Please note that the payment of the test fee alone does not mean registration has been completed.

Art. 4 Test subject

During the Admissions Test, entirely provided into the English language, students are required to answer sixty (60) questions with five response options, of which the candidate will have to choose one only, discarding the wrong, arbitrary or less likely conclusions. On the basis of the programs listed in Annex A, the questions are divided as follows:

- Logical reasoning (20 questions)
- General culture (2 questions)
- Biology (18 questions)
- Chemistry (12 questions)
- Physics and Mathematics (8 questions).

Art. 5 Date, Location and procedure for the Admissions Test

The Admissions Test will be computer based, entirely provided into the English language and it will take place at the test-centres reported on the website www.hunimed.eu and in the Art. 15 “List of test centres”.

The two test dates are:

- Monday, June 24th 2019;
- Friday, July 5th 2019.

Candidates will have 100 minutes to complete the test.

The admission Test for the Degree Course in Medicine and Surgery will be held, in Italy, at **Humanitas University, via Rita Levi Montalcini 4 Pieve Emanuele (MILAN)**. In Milan, the test will start at 02.00 pm. Candidates who sit the test in Milan must present at 01.00 pm for identification and registration with a valid identity document – identity card, driving license or passport – on penalty of exclusion.

For those sitting the test in any of the locations abroad, address, time and locations will be communicated by e-mail from June 3rd. These candidates must arrive to the selected location abroad 30 minutes in advance to complete the registration procedures. Candidates must show their passport or national ID.

Candidates who present themselves after the test “start time” will not be allowed to sit the test. Candidates will have **100 minutes** to complete the test.

After the candidates validation process the test will start. Candidates are not allowed to leave the test within the **first 60 minutes** of the test and within **the last 15 minutes** of the test.

During the test, candidates will not be allowed to talk to anyone apart from the staff and supervision Committee. Candidates will also not be allowed to keep personal belongings with them such as bags, books or notes, dictionaries, paper, pen, mobile phones, pads, smart watches, calculators or any electronic device; candidates will be given indications for storing these items in a specific place. Anyone found in possession of the above-mentioned items during the test will be disqualified.

The Supervision Committee will make sure that rules are respected and will act accordingly if any violation occurs.

Art. 6 Candidates with disabilities

Candidates with any kind of disability in need of extra means of support must formally request the support they will need for this test in relation to the extent of their disability. Candidates with learning disabilities can request the special terms foreseen in the Ministerial Decree DM 5669/2011 to guarantee equal opportunities during the test, including additional time for completing the test.

Among those candidates with disabilities the following should be considered: candidates who are blind, suffering from complete blindness or with vision not exceeding one tenth in both eyes; candidates who are deaf, from birth or before learning to speak; candidates with percentage of civil disability equal to or higher than 66%, candidates with handicap certificate of disability according to Law 104/92 as amended by Law 17/99. Disabilities must be certified by appropriate medical certificate issued by the competent health authorities. Certificates will be accepted only in Italian or in English.

Among the candidates with learning disabilities the following should be considered: candidates affected by dyslexia, dysgraphia, dyscalculia or dysorthography, certified by appropriate medical certificate, issued no earlier than 3 years prior by the National Health Service, by specialists or by

accredited medical institutions, if approved by the Regions. The additional time for completing the test for candidates with learning disabilities will be in the measure of 30% compared to the standard time for the test, pursuant to Ministerial Decree DM 5669/2011.

These requests must be specified when applying for the Admissions Test on MyPORTAL and the medical certificates must be attached in electronic format. **Certificates sent by e-mail will not be accepted**

art. 7 - Delivery of the admission test

The test will be computer based. Instruction on how to answer to the test questions will be reported on each candidate assigned computer.

Art. 8- Test Assessment and rankings

Italian citizens, EU citizens and EU-equated citizens are admitted to the Degree Course in descending order based on their score and provided that they obtained a minimum score of twenty (20) points .

The scores are assigned as follows:

- 1,5 point for each correct answer
- -0,4 points for each incorrect answer
- 0 points for each non-given answer.

The highest achievable score is 90 points.

In case of a draw, the following criteria are applied:

- a) The points scored by the candidates respectively in the logical reasoning, general culture, biology, chemistry, physics and mathematics sections respectively will prevail in descending order.
- b) In case of further draw, the youngest student will prevail.

Art. 9 – Publication of the ranking list

After the test has been corrected, the ranking list will be published by Humanitas University **on July 15th 2019** on the website www.hunimed.eu, maintaining anonymity. Candidates will be able to see their position in the ranking list through the pre-matriculation number generated during the Admissions Test application procedure. Moreover, using the *username* and *password* obtained during the registration on the portal, candidates can see their score by accessing their personal page.

Art. 10 – Online enrolment and reserve list

Enrolment - to be completed online - will be possible between **July 15th 2019** and **July 22th 2019**. In this time range candidates placed in the ranking from position n. 1 to position n. 20 are entitled to enrol. In this time range to confirm the enrolment candidates are required to pay the first instalment and the regional fee of an amount of 4.156 €.

Not covered places, for candidates from position 21 in the ranking will be filled according to the following procedure:

- Publication on the website www.hunimed.eu of the number of places not covered due to withdrawals. Based on the test ranking, the University will begin the admission of those candidates whose position in test ranking was beyond the number of admissions places available (reserve list).
- Eligible candidates must enrol and pay the first instalment (4.156 €) within two working days from the day of publication of each reserve list by 6.00 p.m. of the second day.
- The procedure will be iterated until there are no more places available.

Candidates who do not comply with the above-mentioned deadlines will lose the right to enrol at Humanitas University.

Art.11– Reimbursement of the first instalment

First instalment of an amount of 4.156 € in no cases or conditions will be reimbursed.

The regional tax of an amount of 156 € will be reimbursed only to candidates transferring to another Italian University, having passed the Humanitas University admission test and paid the regional tax to the incoming university for the year 2019-20.

Art.12– Completion of enrolment at Humanitas University

Candidates who have completed the online enrolment procedure must complete the on-line enrolment procedure by:

- a) uploading on the on line portal (MyPORTAL) the following documents:
 - Photocopy of Passport;
 - Photocopy of tax code (Codice Fiscale);
 - a passport photo
- b) providing a self-declaration of high school qualification achieved.
- c) fully accepting the economic conditions specified in the call and in the University Fee Regulation.

Students completing the online enrolment procedure, having paid the first instalment achieve the full enrolment status at Humanitas University.

For students holding a foreign secondary school qualification, a copy of that certificate translated into Italian and legalized by the Italian Consulate/Cultural Institutes, together with the Dichiarazione di Valore (Declaration of Value) released by the Consulate. These documents can be handed in at Humanitas University Student Office from Monday to Friday, from 9.00 to 13.00 and from 14.00 to 17.00. An appointment is not necessary.

Once enrolled at Humanitas University, students from other universities can submit their curriculum and request the recognition of their prior activities. Recognition is subject to evaluation according to the Humanitas University procedure.

Art. 13 Supervision committee and person responsible for the procedure

To assure the fairness of the Admissions Test procedure, Humanitas University will appoint a committee, to be formed of at least three members. University and external personnel will help the commission in the candidate identification and test supervision.

The person in charge of the procedure is Dr. Michelangelo La Torre (Operation Manager of Humanitas University), email info@hunimed.eu. For further information, candidates can contact the Student Office by phone at +39 02 8224 3777.

Art. 14 – Table of deadlines

Beginning of Admissions Test application	12/04/2019
Deadline of Admissions Test for June 24 th test session	17/06/2019
Deadline of Admissions Test for July 5 th test session	28/06/2019
Admission test	24/06/2019 05/07/2019
Publication of ranking list	15/07/2019
Beginning of enrolment	15/07/2019
Deadline for enrolment and payment of first instalment	22/07/2019
Enrolment from the reserve list	23/07/2019

Art. 15 – List of test centres (Country and Cities)

City	Country	Number of places
Milano at Humanitas University	Italy	30
Mumbai	India	15
Delhi	India	15
New York	US	15
Toronto	Canada	10
San Paolo	Brasil	10
Tel Aviv	Israel	20
Cape Town	South Africa	5
Dubai	UAE	15
London	UK	10
Teheran	Iran	10

Art. 16 – VISA Request (Country and Cities)

Each candidate, before sitting the admission test, is kindly advised to verify with the local Italian diplomatic authority the eligibility for the study VISA for the academic year 2019-2020. The University will not be liable for the denial of the study VISA.

Annex A

Syllabus regarding the content of the Admissions Test to the one-cycle Degree Course in Medicine and Surgery, in Dentistry, Veterinary Medicine, and the degree courses in other medical professions

For admission to the courses a general culture in the fields of literature, history, philosophy, social and institutional studies is required, as well as the ability to analyse written texts of various kinds and logical and mathematical reasoning skills.

The knowledge and the skills required are, however, those promoted by educational institutions that organize educational and teaching activities consistent with the Ministerial Programs, especially in view of the State Examinations and also refer to the scientific disciplines of biology, chemistry, physics, and mathematics.

General knowledge and logical reasoning

Assessment of the ability to properly use the language used in the courses and of logical reasoning in a manner consistent with the premises as set out in symbolic or verbal form through multiple-choice questions formulated with short sentences, discarding the incorrect, arbitrary, or less likely conclusions.

The questions will be based on scientific non-fiction or on fiction by classical or contemporary authors, or on texts appearing in newspapers or in general or specialist magazines. The questions will also focus on cases or problems, including those abstract in nature, whose solution requires the adoption of different forms of logical reasoning.

Questions related to general knowledge, as covered in the study curriculum, complete this field of evaluation.

Biology

The chemistry of living organisms.

The biological importance of weak interactions.

The organic molecules found in living organisms and their functions.

The role of enzymes.

The cell as the basis of life.

Cell theory. Cell size. The prokaryotic and eukaryotic cell in animals and plants.

Viruses.

The cell membrane: structure and functions - transport through the membrane.

Cellular structures and their specific functions.

Cell cycle and cell division: mitosis and meiosis - chromosomes and chromosome maps.

Bioenergetics.

The energy assessment of cells: ATP.

Redox reactions in living organisms.

The energetic processes: photosynthesis, glycolysis, aerobic respiration and fermentation.

Reproduction and heredity.

Life cycles. Sexual and asexual reproduction.

Mendelian Genetics. Fundamental laws and applications.

Classical genetics: chromosome theory of heredity; patterns of heredity.

Molecular Genetics: structure and replication of DNA, the genetic code, protein synthesis

The DNA of prokaryotes. The structure of the eukaryotic chromosome. Genes and regulation of gene expression.

Human genetics: transmission of mono- and multifactorial characters; hereditary diseases linked to the X chromosome and autosomal

Biotechnology: Recombinant DNA technology and its applications.

Heredity and environment.

Mutations. Natural and artificial selection. Evolutionary theories. The Genetic basis of evolution.

Anatomy and physiology of animals and man

Animal tissues

Anatomy and physiology of systems and equipment in humans and their interactions.

Homeostasis.

Chemistry

The constitution of matter: states of matter; heterogeneous systems and systems homogeneous; compounds and elements.

Ideal Gas Laws

The structure of the atom: elementary particles; atomic number and mass number, isotopes, electronic structure of atoms of different elements.

The periodic system of elements: groups and periods; transition elements; periodic properties of the elements: atomic radius, ionization potential, electron affinity; metallic character. Relations between electronic structures, position in the periodic system of elements and properties.

Chemical bonding: ionic bonding, covalent bonding, and metallic bonding. Energy binding. Polarity of bonds. Electronegativity.

Fundamentals of inorganic chemistry: nomenclature and main properties of inorganic compounds: oxides, hydroxides, acids, salts.

The chemical reactions and stoichiometry: molecular and atomic mass, Avogadro's number, mole concept and its application, stoichiometry elementary balance of simple reactions, the different types of chemical reaction.

Solutions: solvent properties of water; solubility; The main ways of expressing the concentration of solutions.

Equilibria in aqueous solution.

Elements of chemical kinetics and catalysis.

Oxidation and reduction: oxidation number, the concept of oxidant and reductant.

Balance of simple reactions.

Acids and bases: concepts of acid and base; acidity, neutrality or alkalinity of aqueous solutions; the pH. Hydrolysis. Buffer solutions.

Fundamentals of organic chemistry: bonds between carbon atoms; formulas and rough texture, concept of isomerism. Aliphatic, alicyclic and aromatic hydrocarbons. Functional groups: alcohols, ethers, amines, aldehydes, ketones, carboxylic acids, esters, amides. Elements of nomenclature.

Physics

Measures: direct and indirect measures, fundamental and derived quantities, physical dimensions of quantities, knowledge of the metric system and the CGS System of Units, Technician (or Practical) (ST) and International (SI) units of measurement (names and relations between fundamental and derived units), and multiples (names and values).

Kinematics: kinematic quantities, various motions with particular regard to uniform and uniformly accelerated motion; uniform circular motion; harmonic motion (for all motions: definition and relationship between the kinematic quantities related).

Dynamic: vectors and vector operations. Forces, motion of forces around a point. Vector composition of forces. Definitions of mass and weight. Acceleration of gravity. Density and specific gravity. Law of universal gravitation, 1st, 2nd, and 3rd laws of motion. Work, kinetic energy, potential energy. Principle of conservation of energy. Impulse and momentum. Principle of conservation of momentum.

Fluid mechanics: pressure, and its unit of measure (not only in the SI system). Archimedes' principle, Pascal's and Stevin's laws.

Thermology and thermodynamics: thermometry and calorimetry. Specific heat, thermal capacity. Mechanisms of heat propagation. Changes of state and latent heats. Ideal Gas Laws. First and second law of thermodynamics.

Electrostatics and electrodynamics: Coulomb's law. Electric field and potential. Dielectric constant. Capacitors. Capacitors in series and in parallel capacitors. Current. Ohm's law. Electrical resistance and resistivity, electrical resistors in series and in parallel. Work, Power, Joule effect. Generators. Electromagnetic induction and alternating currents. Effects of electric currents (thermal, chemical, and magnetic).

Mathematics

Sets of numbers and algebra: natural numbers, integers, rational and real numbers. Sorting and comparison; order of magnitude and scientific notation. Operations and their properties. Proportions and percentages. Powers with integer exponents, rational and their properties. Radicals and their properties. Logarithms (base 10 and base e) and their properties. Elements of combinatorics. Algebraic expressions, polynomials. Major products, nth power of a binomial, factoring polynomials. Algebraic fractions. Algebraic equations and inequalities of the first and second grade. Systems of equations.

Functions: fundamental notions about the functions and their graphical representations (domain, codomain, sign, maxima and minima, and monotonicity, etc.). Elementary functions: algebraic integer and fractional, exponential, logarithmic, trigonometric. Composite functions and inverse functions. Trigonometric equations and inequalities.

Geometry: Polygons and their properties. Circumference and circle. Measurements of lengths, areas, and volumes. Isometries, similarities, and equivalences in the plan. Loci. Measure of angles in degrees and radians. Sine, cosine, tangent of an angle and their significant values. Trigonometric formulas. Solving triangles. Cartesian reference system in the plane. Distance between two points and the midpoint of a segment. Equation of the line. Terms of parallelism and perpendicularity. Distance of a point from a line. Equation of the circle, the parabola, hyperbola, of the ellipse and their representation in the Cartesian plane. Pythagorean Theorem.

Probability and Statistics: Frequency distributions depending on the type of character and the main graphical representations. Definition of random experiment and event. Probability and frequency
