SELECTION PROCEDURE FOR RESEARCH FELLOWSHIP

Research Program Title	Evidence synthesis to inform health care decisions
Tutor	Prof. Stefanos BONOVAS
Scientific Area	06 – Medical Sciences
Gross amount of the fellowship	26.000 Euro
Duration of the fellowship	26 months
Objectives of the research	The research project aims to utilize advanced evidence synthesis methods to inform healthcare decision-making. Through the use of systematic reviews, scoping reviews, umbrella reviews, and both classic and network meta-analyses, the project will synthesize data from a range of sources to generate reliable and comprehensive evidence. The results of these analyses will be used to inform policy-making in healthcare and improve patient outcomes by ensuring that decisions are based on the best available evidence.
Activities to be carried out	<ul style="list-style-type: none">• planning evidence syntheses,• conducting comprehensive literature searches,• screening studies for eligibility,• extracting data,• evaluating risk of bias,• synthesizing evidence using meta-analytic techniques,• evaluating evidence quality,• producing work summaries and reports,• contributing to the writing and publication of research papers.

Work place	PIEVE EMANUELE - Milan
Mandatory requirements	<ul style="list-style-type: none"> • Master's degree in Biology, Biostatistics, Medicine and Surgery or in any Scientific Discipline. • Adequate scientific and professional background to carry out the research activity described in this call. • PhD is to be considered as preferential
Selection process	<p>Application for admissions must be submitted at the following link: https://pica.cineca.it/humanitas</p> <p>No hard copy of the application must be sent by post. At first access, applicants need to register by clicking on “Register” and completing the requested data. If applicants already have LOGINMIUR credentials, they do not need to register again. They must access with their LOGINMIUR username and password in the relevant field LOGINMIUR. Applicants must enter all data necessary to produce the application and attach the required documents in PDF format.</p>
Selection criteria	<p>Selection criteria are predetermined by the Selection Committee. As part of the selection process, the Committee will evaluate the curriculum, titles and publications presented by the candidate and will consider, in particular:</p> <ul style="list-style-type: none"> - Professional experience in the fields of biostatistics, epidemiology, evidence synthesis. - Publications in scientific journals. - Excellent knowledge of the English language. - Prior experience working in an international research setting.

FURTHER INFORMATION:

In the event of any conflict between Job Opening text and Italian D.R. text, the Italian version will prevail.
